

Power In Time

隨時 · 隨想 · 隨行

我們認為香港是最適合使用電動車的城市之一，地面積不大，駕駛距離不遠，且基建發展良好。我們希望通過各種最新的充電技術，為大家帶來最合理的充電方式，令充電和續航力不再是生活上的煩惱和負擔，隨時隨地都可以充電。

現時仍有不少地方未有合適的充電設施，如果您希望我們為您常到的地方增加方便及型格的充電設施，歡迎電郵告知 (386service.xggs@sinopec.com)，我們會盡快為您服務。

SINOPEC

Power In Time

We believe Hong Kong is one of the most suitable cities for driving electric vehicles, given Hong Kong is relatively small in area, short in driving distances, and has excellent infrastructure development. We will provide the most sensible charging solutions through the latest charging technologies. We aim to relieve your worries about range anxiety and the burdens of finding the next available charger. We want to make charging accessible anytime and anywhere for all EV drivers.

Currently, there are still numerous locations lacking suitable charging facilities. If you want us to install convenient and stylish charging facilities in places you frequently visit, please email us at 386service.xggs@sinopec.com. We will promptly attend to your request and provide our service.
